

SAFE STORAGE OF HAZARDOUS CHEMICALS

By maximising awareness of the potential hazards of chemicals and equipment, we aim to minimise the risk of harm to staff, children and families by ensuring hazardous products are safely stored, handled and controlled.

NATIONAL QUALITY STANDARD (NQS)

QUALITY AREA 2: CHILDREN'S HEALTH AND SAFETY		
2.2	Safety	Each child is protected
2.2.1	Supervision	At all times, reasonable precautions and adequate supervision ensure children are protected from harm and hazard

PURPOSE

Happy Haven OSHC aims to protect children, families and visitors from hazard and harm at all times. We promote the use of environmentally friendly products where possible and ensure we provide a safe

environment where chemicals and hazardous products and equipment are safely stored and managed away from children and are handled appropriately.

SCOPE

This policy applies to children, families, staff and visitors of Happy Haven OSHC.

IMPLEMENTATION

THE APPROVED PROVIDER OR NOMINATED SUPERVISOR WILL:

- That every practical measure is taken to protect children being educated and cared for by Happy Haven OSHC from harm and any hazard likely to cause injury
- A smoke free environment is provided to children, staff, families and visitors at all times
- All dangerous goods and hazardous substances are identified within the service and included in the chemical register
- A risk assessment has been conducted in consultation with the Work Health and Safety Officer prior to using any potentially dangerous or hazardous substance
- Educators adhere to the service procedures for dealing with and handling chemicals
- Safety Data Sheets (SDS) and the Chemical Register is readily available and regularly updated
- Appropriate training and Personal Protective Equipment (PPE) is provided for employees who may be exposed to dangerous goods and/or hazardous substances
- Relevant signage is displayed highlighting the hazardous nature of chemicals used or stored in the service (e.g. Caution- Chemical Storage Area; Danger; Hazardous Chemicals)
- There are emergency procedures and practices for accidental spills and/or contamination and corresponding first aid plans for all dangerous goods handled and stored in the service within relevant SDS documentation

NOMINATED SUPERVISOR AND RESPONSIBLE PERSONS WILL ENSURE:

- At least one educator/staff member is in attendance on the premises with ACECQA approved first aid qualifications at all times
- All staff are made aware of correct storage and usage procedures for potentially hazardous materials during their initial orientation at the service

- There are appropriate and lockable storage facilities in the service in which dangerous products are stored
- Dangerous products will be stored in areas of the service that are not accessible to children or in cupboards fitted with key
- A hazardous substances register is used and regularly updated
- A risk assessment for any dangerous materials stored in bulk within the education and care premises has been carried out and is regularly updated
- Safety Data Sheets (SDS) are maintained at the service. Safety Data Sheets must be kept on all chemicals used on the premises. Work Health and Safety (WH&S) officers are to keep this information up to date at all times, with a review of the folder annually. No SDS is to be more than 5 years old.
- Chemicals in spray bottles are clearly labelled with contents and are not used with children in the immediate vicinity
- In the event of any incident involving accidental exposure to chemicals or other hazards or incident involving possible poisoning, an *Incident, Injury, Trauma and Illness Record* will be completed
- If a serious incident occurs involving the need for medical intervention or emergency services, notification is made to the Regulator Authority within 24 hours.

EDUCATORS WILL ENSURE THAT:

- Seek medical advice if needed by contacting the Poisons Information Line (13 11 26) or by calling 000
- Wear Personal Protective Equipment (PPE) when handling dangerous substances or materials.
- Not use spray bottles containing chemicals in the immediate vicinity of any child or children
- Read the label before using any cleaning material, sprays or chemicals and strictly adhere to the '*Directions for use*' and be aware of appropriate first aid measures
- Store all dangerous products in well-labelled and original containers that preferably have child resistant lids and caps in a secure and locked place/cupboard, inaccessible to children
- Ensure all chemicals and cleaning products are returned to their designated location immediately upon completion of cleaning tasks

- Not mix cleaning products as there is the potential for harmful chemical reactions to occur endangering all persons on the premises
- Dispose of all products safely, in accordance with the manufacturer's instructions on the product label, Work Health and Safety regulations, and Council by-laws
- Be encouraged to attend professional development sessions to maximise their awareness of dangerous products and potential hazards, and source chemical free methods to reduce possible hazards in the service
- Ensure cleaning and hazardous products are not stored close to food products
- Consider minimising the use of dangerous products in the education and care service and use alternate environmentally friendly options
- Complete weekly and quarterly WHS checklists to ensure that any dangerous products used within the service have current Safety Data Sheets (SDS) and are stored appropriately.
- Only administer children's medications or allow self-medication with family authorisation and in accordance with medical directions (see *Administration of Medication Policy*)
- Ensure medication is stored in an area inaccessible to children
- Ensure any medications or dangerous substances that requires refrigeration, be placed in a labelled childproof container, preferably in a separate compartment of the fridge
- Check that all remotes, toys and products containing button batteries have a screw to secure them.

POISONING

Many products and materials that are used and kept within an education and care service are potentially poisonous to children, especially young children. Poisonings can happen quickly, and toddlers are most at risk due to their tendency to put objects in their mouths. Educators must be aware of ensuring parents with toddlers visiting Happy Haven OSHC service's are adequately supervised at all times.

Poisonous substances may include medication, household cleaners, garden products, paint, cosmetics, toiletries, chemicals, batteries and petroleum products. Happy Haven OSHC will ensure all items that may cause harm to children in our care, and children who may be visiting our service, are inaccessible. Staff will keep their personal items in a cupboard/locker which is inaccessible to children.

Poisonous plants and trees can also cause safety risk to children and should be identified in any risk assessment conducted at the service and risk mitigation strategies implemented including removal of any potentially dangerous/poisonous plants and trees.

Happy Haven OSHC service's will display a notice detailing the Poison Information Hotline in visible positions.
